

Sharafat Ali

Full-Stack Software Engineer

sharafat.codes@gmail.com | Remote, Worldwide | sharafatali.dev

SUMMARY

Full-stack engineer with 2+ years building production SaaS platforms, marketplaces, AI applications, e-commerce, and business automation used by real businesses.

CORE SKILLS

Backend: Laravel, PHP, Node.js, NestJS, REST APIs

Frontend: Vue.js, React, Next.js, TypeScript, Inertia.js

Mobile: React Native | Database: MySQL, PostgreSQL

Integrations: Stripe, PayPal, Flutterwave, Paystack, Shopify, Klaviyo

SELECTED PROJECTS

SecureGrades - Digital educational e-commerce platform

Laravel, Inertia, Vue, MySQL, Stripe. Secure checkout and digital delivery.

Empali - Community marketplace (web + mobile)

Laravel API powering a Vue web app and a React Native mobile app.

QuizyPilot - AI quiz & product recommendation engine

NestJS backend with branching quiz logic and conversion analytics.

Quizell Partner Platform - SaaS partner management

Laravel + Vue partner dashboards, analytics, and workflow automation.

Stitchly - Tailor business management software

Customer records, measurements, and full order lifecycle automation.

WHAT I BUILD

SaaS products, marketplaces, e-commerce, custom business software, API development & integrations, payment gateways, and mobile apps.
